Prof. dr. H.A.M. Marres

Table of contents

Part I	General introduction and outline of this thesis	8
Part II	Smile reanimation surgery	14
2.1	Comparison of cross-face nerve grafting outcomes with and without muscle transfer in facial palsy treatment	18
2.2	A higher quality of life with cross-face nerve grafting as an adjunct to a hypoglossal-facial nerve jump graft in facial palsy treatment	30
2.3	Spontaneity assessment in dually innervated gracilis smile reanimation	42
2.4	Keeping the fat on the right spot prevents contour deformity in temporalis muscle transposition	54
2.5	Gracilis transplantation and temporalis transposition in longstanding facial palsy in adults: Patient-reported and aesthetic outcomes	66
2.6	Patient experience in nerve-to-masseter-driven smile reanimation	78
2.7	Spontaneous smile after smile reanimation surgery: A systematic review and meta-analysis	88
Part III	Mime therapy and treatment of synkinesis	114
3.1	Therapists' perceptions and attitudes in facial palsy rehabilitation therapy: A mixed methods study	118
3.2	Long-term outcome of selective neurectomy for refractory periocular synkinesis	134

Part IV	Facial palsy-related quality of life	146
4.1	Facial palsy-specific quality of life in 920 patients: Correlation with clinician graded severity and predicting factors	150
4.2	Association of regional facial dysfunction with facial palsy-related quality of life	160
4.3	Patient-perceived severity of synkinesis reduces quality of life in facial palsy: A cross-sectional analysis in 92 patients	172
Part V	Assessment of facial palsy	184
5.1	Learning curve using the Sunnybrook Facial Grading System in assessing facial palsy: An observational study in 100 patients	190
5.2	Three-dimensional stereophotogrammetry assessment of facial asymmetry in facial palsy: A reliability study of 59 subjects	198
5.3	Health-related quality of life in facial palsy: Translation and validation of the Dutch version Facial Disability Index	210
5.4	Beauty is in the eye of the beholder: Aesthetic outcome assessment in smile reanimation surgery in patients with facial palsy	224
5.5	In the eye of the beholder: Changes in perceived emotion expression after smile reanimation	236
Part VI	Summary and general discussion	256
	Appendices	270
	Dutch summary / Nederlandse samenvatting	272
	Curriculum vitae & list of publications and presentations	278
	Acknowledgements / Dankwoord	284
